

Money for Education

Is this the year that you want to go back to school?

Do you have a son or daughter who is interested in attending college or vocational school? Is someone in your household currently attending school?

Would an extra \$4,000 help to pay for tuition and fees?

The Individual Development Account (IDA) may be the answer!

This matched savings program allows you to:

- ◆ Save up to \$500 from earned income within a year, or make a one-time deposit of \$500 from your income tax return.
- ◆ Receive an eight to one savings match up to a total of \$4,500.
